**France: 080-563-9909**

**Malaysia: 1-800-80-8124**

**Greece: 00800-12-6609 or 30-80-1-100-0674**

# Disclaimer

This presentation has been prepared by SpeedCast International Limited ("SpeedCast"). By accessing or attending this presentation you acknowledge that you have read and understood the following statements.

The information in this presentation does not constitute financial product advice (nor investment, tax, accounting or legal advice) and does not take account of your individual investment objectives, including the merits and risks involved in an investment in shares in SpeedCast, or your financial situation, taxation position or particular needs. You must not act on the basis of any matter contained in this presentation, but must make your own independent assessment, investigations and analysis of SpeedCast and obtain any professional advice you require before making an investment decision based on your investment objectives.

All values are in US dollars (USD\$) unless otherwise stated.

Past performance information given in this presentation is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance.

This presentation contains certain "forward looking statements". Forward looking statements include those containing words such as: "anticipate", "estimate", "should", "will", "expect", "plan", "could", "may", "intends", "guidance", "project", "forecast", "likely" and other similar expressions. Any forward looking statements, opinions and estimates provided in this presentation are based on assumptions and contingencies which are subject to change without notice and involve known and unknown risks and uncertainties and other factors which are beyond the control of SpeedCast. In particular, this presentation contains forward looking statements that are subject to risk factors associated with the service provider industry. These statements may be affected by a range of variables which could cause actual results or trends to differ materially, including but not limited to: price fluctuations, actual demand, currency fluctuations, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory developments, economic and financial market conditions in various countries and regions, and political risks, project delay or advancement approvals and cost estimates. Such forward looking statements only speak as to the date of this presentation and SpeedCast assumes no obligation to update such information except as required by law.

Forward looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Actual results may differ materially from those expressed or implied in such statements because events and actual circumstances may not occur as forecast and these differences may be material.

Readers are cautioned not to place undue reliance on forward looking statements and, except as required by law or regulation, SpeedCast assumes no obligation to update these forward looking statements. To the maximum extent permitted by law, SpeedCast and its officers, employees, agents, associates and advisers do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of such information, or likelihood of fulfilment of any forward looking statement, and disclaim all responsibility and liability for these forward looking statements (including, without limitation, liability for negligence).

# Transaction Overview

## Transaction Highlights

- SpeedCast has signed a definitive agreement to acquire SAIT Communications for an initial consideration of USD 14.2M<sup>1</sup> on a cash free/debt free basis
- The initial consideration comprises USD 13.8M in cash, financed with debt, and USD 0.4M in new SpeedCast shares<sup>2</sup>. Additional potential consideration of up to USD 7.5M is payable in 1H 2017 if certain revenue growth targets are reached in FY 2016. Any additional consideration would comprise 1/3 in cash and 2/3 in new SpeedCast shares<sup>3</sup>.
- Completion is expected to occur before the end of July 2015

## Strategic Rationale

- The acquisition of the SAIT Communications business is consistent with the Group's strategy of acquiring value enhancing assets in key locations and/or industries where we see long-term sustainable growth.
- The addition of the business significantly enhances SpeedCast's position in one of the Group's identified key long-term organic growth engines, specifically in the important maritime markets of Greece and Cyprus.
- SAIT Communications has a history of strong organic growth and services about 2,500 ships. The existing customer base has very low VSAT penetration, providing significant additional growth opportunities as some of the vessels migrate to broadband VSAT services. This will also result in margin expansion with the change in product mix.
- Key managers will remain with the business and join the SpeedCast group, complementing and strengthening the existing Maritime management team.

<sup>1</sup> excluding transaction costs estimated at approx. USD 0.4M

<sup>2</sup> number of shares calculated using the 30 day VWAP prior to Closing

<sup>3</sup> up to a maximum value of USD 3.0M based on the 30 day VWAP prior to Closing

# SAIT Communications Business Overview

- Focused on providing satellite communications services to the maritime industry in southern Europe, in particular to large Greek ship owners
- Established business with long-standing customer relationships.
- Strong market position in southern Europe maritime market, in particular the large Greek market, providing services to about 2,500 vessels, primarily in merchant shipping.
- Portfolio of value added services and in-house product development capabilities
- Well established relationships with key strategic suppliers
- Senior management team well respected in the Maritime industry

# Strategic benefits of the acquisition

## Maritime industry

- Strengthens SpeedCast's position in the global maritime satellite communications industry
- The maritime sector has strong long-term organic growth fundamentals for satellite communications

## Strong organic growth potential

- Existing customer base of about 2,500 vessels has low penetration of VSAT services, providing opportunity to leverage growth from migration to VSAT.
- Operates in Southern Europe, with the opportunity to leverage growth opportunities in the key maritime markets of Greece and Cyprus.
- Leverage the Group's maritime client base to sell a wider range of services developed in-house by SAIT Communications.
- Margin expansion to be realized due to change in products mix and economies of scale

# Financial information – SAIT Communications business

## Financial information: 2015

- Full Year 2015 forecast revenue expected to be approximately USD20M, a 10% growth over 2014

## Financial information: 2016+

- Migration to VSAT services expected to generate strong organic growth opportunities in line with existing Maritime business, resulting in sustainable double digit revenue growth in the medium to long term
- Double digit EBITDA growth expected due to revenue growth as well as additional margin growth from an increased mix of VSAT services and supplier cost synergies

# Financial impacts for SpeedCast shareholders

## Post acquisition EPS

- The acquisition of the SAIT Communications business is expected to be EPS accretive for SpeedCast shareholders<sup>1</sup>

## Funding

- SpeedCast has increased the Group's committed debt facilities with its existing lenders by a further USD 15M on terms consistent with its existing facilities, subject to documentation.
- Initial consideration payable to the Vendor is approximately USD 13.8M in cash and USD 0.4M of new SpeedCast shares.
- Transaction costs are expected to be USD 0.4M

## Pro forma leverage

- Pro forma leverage<sup>2</sup> post the acquisition is expected to be 2.9 – 3.0 times.
- The Group's long-term leverage target range remains at 1.75 - 2.25 times. Strong operating cash flows and earnings growth are expected to reduce the leverage ratio back within this range within 12-18 months from the acquisition date.

<sup>1</sup> Excluding the amortisation of any acquired intangibles.

<sup>2</sup> Net debt / Pro forma EBITDA (based on previous 12 months and assuming earnings from acquisitions for full 12 month period)
